

## BatchMaster ERP for Fresh Produce (Fruits & Veggies)

### Fresh leap towards excelling your business

The key to succeed in Fresh Produce industry is to deliver quality products at competitive prices and keeping the tight deadlines, all at the same time. BatchMaster ERP for Fresh Produce understands this need of your business, and helps it grow profitably by enhancing its efficiency and providing an integrated solution at every level. Its powerful features give you a real-time view of your core business processes, thus empowering you to make informed and timely decisions.

# BatchMaster ERP for Fresh Produce

## (Fruits & Veggies)

Its features also enable you to meet food safety and product quality control requirements, thus rendering greater traceability and visibility throughout your entire set of operations. Transparency to your sales, inventory, accounting, payroll, and greater control over your business. That's BatchMaster ERP for you! Its other features include:

- Farm-to-fork traceability of multiple ingredients - from vendor to customer and vice-versa
- Cost accounting to a specific consignment for all processes within the supply chain as well as cost allocation of purchased goods, which enables budgeting of expected costs
- Insights into planning and transport costs
- Inventory control and management to provide insights into stock availability, which facilitates quicker sales process
- Effective planning and scheduling of the production orders broken down to hourly level
- Efficient Warehouse and Consignment management for faster scheduling and execution of picking orders
- Instant recall functionality for better responsiveness and faster audit
- Product sorting based on quality, grade, size, etc
- Allows establishment of quality checks throughout your supply chain based on your compliance and quality requirements
- Process-cell scheduling & tracking with cutting down of the changeover times between switching from conventional to organic production
- Real-time alerts and exception reporting to detect and address anomalies
- Regulatory compliances related to FDA, FSMA, FSSAI, PMO, non-GMO, organic, HACCP etc.
- Shelf-life and 'Best Before Date' management
