

# BatchMaster ERP for Ink

## Crafts your business story with ink of success

Right from the newspaper we read to the currency we use, the use of ink is extensive in our daily lives. This gives us an account of good health of the ink industry. Ink's application in various end-use industries such as food and beverages, printing, packaging, publication etc. - which themselves are growing - is propelling the growth of the ink industry in recent times. However, with this growth come the challenges too. Stringent government regulations, streamlining the manufacturing process, meeting the demands of environmentally conscious consumers are only some of the many challenges.

In such exciting yet challenging times, BatchMaster ERP for Ink, a perfect fit for formula/recipe-based manufacturers, comes to ink manufacturers' aid. It is fully compatible to the different stages of their manufacturing process. Apart from that, BatchMaster ERP for Ink provides complete formula security, supports regulatory compliance requirements, lot traceability, takes care of planning and scheduling functions through MPS and MRP and ensures all the business processes run smoothly without interruption, in complete sync with each other.
