

BatchMaster ERP for Pharmaceuticals

A prescription for success

These are good times to be in pharmaceutical manufacturing. The patent expiry of many branded drugs has opened up the market for generic drugs, which has resulted in industry growth. The improved healthcare infrastructure and increased penetration of health insurance in smaller towns too has fueled this growth. But along with it, various challenges too have cropped up. Rise in competition, greater need for quality control and adherence to the regulatory compliances, delivering safe, affordable products etc. are some of many such challenges.

In such times, manufacturers are increasingly turning towards tools backed by technology to counter these challenges. BatchMaster ERP for Pharmaceuticals, one such tool, has been designed specifically for this segment to streamline the pharma manufacturers' operations. With a successful track record of more than 30 years, BatchMaster assures the manufacturers with enhanced quality, consistency, and speed to deliver safer and cost-effective products to market. A potpourri of features like accurate costing, superior formulation management, real-time batch monitoring, compliance to cGMP and other regulatory requirements, end-to-end bi-directional traceability, et al ensure that wastage is minimized, costs are controlled and profits are enhanced.

BatchMaster ERP for Pharmaceuticals

Check out BatchMaster ERP for Pharmaceuticals' features below:

Products:

BatchMaster ERP

Our Flagship product, BatchMaster ERP, is a true process-centric solution serving the manufacturing, distribution, finance, compliance and quality needs of your business.

BatchMaster Point-Of-Sales (POS)

A web-based software solution for wholesale, distribution, and retail businesses, it can be used online on iPads, Android tablets or laptops. By syncing the complete information of products, customers, and orders into a single platform, it makes it easy to scan products, check for inventory, apply discounts or offers, and accept payments both in plastic money as well as in cash. Ultimately, helping retailers improve customer service, increase productivity, reduce thefts and offer better retail experience.

Integration with MAGENTO:

Integration of BatchMaster Enterprise with Magento helps manage your business online. The integration provides a seamless method to completely collaborate your ERP system with your current or upcoming Magento stores. Via this integration, orders from your Magento store and website will automatically be loaded into the BatchMaster Enterprise ERP solution – along with an alert about order arrival. It enables complete synchronization of item records, price lists, inventory, taxes, business partners, orders, deliveries, shipping & tracking, and payments.
