BatchMaster ERP for Wall Paints

Paint your business with the colors of growth!

A new generation of consumers, known as green consumers, has become tremendously aware of the threat paints cause to the environment. This breed of consumers, which is increasing in number day by day, pushes the paint manufacturers to innovate safer and greener products that fit their budgets as well as are available in multiple packaging. This is just one of the many challenges the paint manufacturers face on a routine basis. However, there is an easy solution available to all their challenges – a specialized, tailor-made ERP.

The BatchMaster ERP for Wall Paints is exactly this solution! Designed keeping the needs of wall paints manufacturers in mind, it helps them manage different business operations like managing base and numerous other formulations, inventory, quality control, raw materials procurement, regulatory compliances, waste tracking & disposal, etc with ease. Besides, it also makes complex processes such as paste making, dispersing pigments, VOC and PVC calculation, thinning and canning the paint, etc., an organized and transparent affair.
