BatchMaster ERP for
Chemical

Perfect catalyst for business robustness, agility, and growth

BatchMaster ERP for Chemical

The chemical manufacturing industry is complex and multi-faceted, and has its own share of challenges and opportunities. Its landscape is changing more dynamically than in the past, as the chemical manufacturing businesses grapple with issues like fluctuating raw material prices, procurement challenges, expensive R&D, environmental challenges, ever-evolving regulatory requirements, and demand shifting to new markets, among others. At the same time, the competition is intensifying, and chemical companies are finding it hard to hold their ground in global marketplace.

Amid such scenario, regardless of whether yours is a private-label chemical manufacturing company of any size, or one that co-packs, or produces its own line of commercial or industrial chemical products such as inks, epoxy & resins, polyurethane, agrochemicals, pigments & dyes, etc., optimal control of costs and capacities, wise use of raw materials, and complete visibility into the operations is crucial to its success. All this, and a lot more, can be done with BatchMaster **Chemical ERP Software.**

BatchMaster ERP for Chemical

A secure, stable & future-built ERP solution, BatchMaster ERP System for Chemical Manufacturing has its modules designed keeping the unique requirements and challenges of chemical industry in mind. Its industry-rich functionality derived from in-depth domain expertise facilitates managing hundreds of formulas, as well as hazardous chemicals, bi-directional traceability, separate costing of formulas and packaging materials, and support to multiple packaging options, GHS labeling requirements, contract manufacturing, and hassle-free compliance with regulatory requirements including **EPA, OSHA, ISO, DOT,** etc.

BatchMaster ERP for Chemical helps integrate and streamline critical business processes such as formula management & laboratory, purchase, inventory, planning & scheduling, manufacturing, quality control, compliance, costing, sales, etc., thus providing complete visibility and precise control over all operations. Among other benefits, implementation of BatchMaster **ERP for Chemical Industry** results in increased operational efficiency, greater inventory control, better decision making and planning, enhanced safety standards, reduction in costs, improved management reporting & analysis, and ability to rapidly develop new products.

BatchMaster Chemical Manufacturing ERP – A fully-integrated & comprehensive solution

A feature-rich solution that comes with the power and flexibility to meet the evolving needs of your chemical manufacturing business.

BatchMaster ERP for

- Lot Traceability & Recalls
- Finance & Accounting
- Laboratory & Formula Management
- Regulatory Compliance
- Inventory Management
- Planning & Scheduling
- Quality Control & Quality Assurance
- Batch Production
